Brightpoint Health

Lettice Maldonado, MPA, CASAC - T
Assistant Director for Business Operations
Mary Correa, MS - Senior Director, Grant Programs

Brightpoint Health A Member of Hudson River Health Care

Short – Term Goals

1. Query Report
2. Increase staff capacity to outreach and link HCV patients to care
3. Continue HCV Treatment Education and best practices

Goal 1

1. Weekly Cognos Report through Health Informatics Quality Management.

2. Review patient list weekly to identify those still in need of treatment – then provide necessary linkage to care and treatment.

Goal 2

1. Utilize External Resources to build capacity to outreach and link clients to care.

Goal 3

1. Attend HCV Trainings for staff development and skills building to improve health outcomes.

Project Plan	Outcome	Sustainability Plan
Review Cognos Report to provide Hep C linkage to care and treatment.	Of the patient lists reviewed 45% have been linked to Hep C care and treated and cured of HCV.	• Patient lists will be generated and reviewed weekly • Clinical providers will notify the HCV team of their patients needing treatment through a telephone encounter via eCw, monthly case conference and daily huddles.
Increase Program Capacity through external resources.	Build HCV Team and internal capacity.	Increase HCV linkage to HCV treatment and care.
Quarterly Staff Trainings.	Develop Skills through Education for HCV best practices.	Ongoing trainings for staff development.
