NYS HCV Screening Mandate

New York State Law mandates offer of screening test to all people born 1945-1965

- Baby Boomers account for 75% of all Hepatitis C patients
- To confirm **active** Hepatitis C, Monte lab now reflexes HCV viral load if antibody test is positive

 **Hepatitis C Screening:** This patient is recommended for one time Hepatitis C screening due to year of birth between 1945 and 1965. Open the suggested SmartSet to order the procedure. Otherwise, indicate a reason for not ordering.

Acknowledge reason:
