

Project SUCCEED

NYC Hep C Task Force

April 11, 2018

Goals and Objectives

- **Goal:** to eliminate hepatitis C (HCV) amongst people living with HIV (PLWH) in NYC and reduce racial/ethnic disparities in access and treatment
- **Objectives:**
 - Promote HCV screening, rescreening, and diagnostic testing according to guidelines
 - Educate HIV patients about the risks of HCV, and the benefits of cure
 - Increase HIV clinical and non-clinical provider HCV knowledge and care management skills
 - Support organizations to identify, return to care, and treat all HCV patients
 - Conduct case investigation and linkage to care for patients who can not be returned to care by an organization
