

HCV ELIMINATION COMMUNITY OF PRACTICE - WEBINAR

MOVING TOWARDS HEPATITIS C
ELIMINATION IN THE UNITED STATES

Join us for an interactive webinar hosted by The International Network on Health and Hepatitis in Substance Users (INHSU). This webinar aims to facilitate a community of practice, providing a platform to discuss any ongoing challenges and share innovative solutions in hepatitis C (HCV) service delivery. Engage with peers, learn from real-world experiences, and contribute to the collective effort to enhance hepatitis C care models.

This webinar is designed for all those involved in HCV care and management in the United States. While it targets individuals who have attended one of our HCV Intervention Symposia, we warmly welcome the participation of anyone working towards HCV elimination.

This webinar will cover:

- Best practice models of street-based medicine
- Challenges and enablers of delivering effective outreach models of care in rural and urban settings
- Q&A and discussion

JOIN US:

Wednesday 2 April 2025

1:00PM (PDT)

3:00PM (CDT)

4:00PM (EDT)
